AIR POLLUTION CONTROL

iSMF

Integrated Safety Monitoring Filter

With the Farr Gold Series® no interconnecting duct work is required between dust collector, safety monitoring filter (SMF) and fan.

Typical Horizontal Cartridge Filter unit

Inlet duct work

Saving You Money

- Lower installation cost associated with assembly
- Smaller space requirement
- Less duct = less pressure drop = energy savings
- Safety monitoring filter is under a negative pressure on the Camfil design
- Tested and approved with real ST2 dust explosions according to ATEX for explosive dust
